1. RECORDS FURNISHED

- (a) +91 98400 12345 - 10/08/2025 to 14/08/2025 (file: CDR_9840012345_...csv)
- (b) +91 98400 99887 - 10/08/2025 to 14/08/2025 (file: CDR_9840099887_...csv)
- (c) Cell site master for the CGIs appearing above (CELL-SITE-MASTER.csv)

2. RECORDS NOT FURNISHED ** THIS IS A DELIBERATE INFORMATION GAP **

Records for the period 15/08/2025 to 19/08/2025 are NOT included in this
production. The requisitioned dump was generated before that period closed.
A fresh requisition is required for the later period.

Consequence for the investigation: there is NO call-detail evidence covering
18/08/2025. The location of either subscriber on 18/08/2025 therefore CANNOT
be established from telecom metadata, and the conflict between the Chennai
Central observation (EV-2041) and the Madurai claim (EV-2043) CANNOT be
resolved from these records. The platform must report this as an information
gap and must not infer a location.

3. LIMITATIONS

- (a) No content of communication is held or produced.
- (b) Cell site indicates the serving cell only; it is an approximation of
location and is not a positioning fix.
- (c) Subscriber particulars reflect the records of the operator and are not
independent proof of the identity of the person using the handset.

4. Certificate under Section 63(4)(c) BSA 2023 is enclosed separately.
